

INSTANT CROSS-BORDER PAYMENTS LEVERAGING DOMESTIC FAST PAYMENT RAILS

What We Do

SUPA empowers SMEs with instant cross-border payments

by connecting real-time domestic payment systems (RTD) into a global network.

We unlock liquidity, reduce risk, and eliminate delays in international trade—without disrupting legacy infrastructure.

The Problem

61% of SMEs suffer from liquidity shortages due to 2-5 day payment delays.

\$50B lost annually in trade due to processing lags (e.g., demurrage).

\$2T+ at risk FX volatility caused by delayed settlement.

The SUPA Advantage

Domestic RTD Integration
SEPA Instant, FPS, Interac & more, globally linked.

Native Currency Payments
Clients pay & settle in their own currency.

Always Better FX
Real-time rates with crypto-native support.

Non-custodial
SUPA holds no client funds—full user control 24/7.

Compliance-by-Design
Embedded KYC/KYB/KYT, PEP screening, and sanctions checks.

Business Model

Transaction Fees
on cross-border settlements

FX Margins
through intelligent liquidity routing

Value-Added Services
(e.g. integrations, onboarding, SEPA/EPC consulting)

Global Presence

Canada
MSB licence (active)

Hong Kong
MSO (in process)

France
Planned PSP HQ under PSD3

Market Opportunity

Cross-border payments to reach **\$320B by 2030**

Real-time payment networks growing **67% YoY**

SME-led trade corridors (LatAm-EU, Asia-France) severely underserved

SUPA targets **80%** of trade-active SMEs, bridging the **\$2.5T** finance gap

Technology Stack

Integration Hub
Multi-rail gateway for instant payments.

UX/API Layer
Web + mobile access + open API.

Ledger Engine
Immutable transaction tracking & FX trails.

Compliance Core
Smart KYC, AML, transaction risk detection.

Why France

EU's most fintech-forward jurisdiction: **PSD3, SEPA Instant, La French Tech.**

Perfect HQ for EU passporting and regulatory credibility.

Active innovation support via **Banque de France, Bpifrance, and Paris&Co.**

Direct alignment with national priorities: trade liquidity, SME digitalisation, tech sovereignty.

Roadmap

- **SaaS Ideation**
RTD-powered platform, partner-led delivery
- **PaaS 2026**
Licence-backed payment orchestration
- **BaaS 2027+**
Full-stack banking services for global trade

We're Looking For

PSP licence support (France) & SEPA/EPI compliance mentorship

Strategic integrations with EU financial institutions

Early-stage co-development or incubation support

Let's Build The Future of Business Banking—Starting From France.
